PROFILE

Computer Science graduate with hands-on experience building responsive interfaces and maintainable API services. Comfortable translating requirements into tested features, collaborating through Git, and explaining implementation choices clearly.

SELECTED PROJECT

Service Request Management Portal

React, Node.js, Express, PostgreSQL

- Created a responsive request-tracking interface with accessible form labels and clear status states.
- Built and tested API routes for request creation, assignment, and status updates.
- Used Git issues and pull requests to track implementation work and document test scenarios.

EDUCATION

B.Tech, Computer Science | Northstar Institute of Technology | 2026 | CGPA 8.2/10

CERTIFICATIONS AND ACHIEVEMENTS

Software Engineering | Java Programming | Web Accessibility Basics
Add verified coding profiles, assessment scores, and awards.
