TARGET

Cognizant GenC
SuperSet

Target: GenC / GenC Elevate

CORE STRENGTHS

Java, Python, SQL, JavaScript
Spring Boot, React, Node.js
Git, Docker, Postman, AWS basics
OOP, REST APIs, data structures, database design

Aarav Sharma

Graduate Software Engineer | GenC

Bengaluru, India | +91 90000 12345 | aarav.sharma@example.com
linkedin.com/in/aarav-sharma | github.com/aarav-sharma

PROFILE

Computer Science graduate with project experience in Java, Spring Boot, React, and SQL. Built and deployed full-stack applications with REST APIs, authentication, and clear documentation. Seeking an entry-level software engineering role.

SELECTED PROJECT

Campus Event Booking Platform

Java, Spring Boot, React, PostgreSQL

- Built REST endpoints for event search and registration, with validation and role-based access.
- Designed a normalized PostgreSQL schema and added indexes for frequently used event filters.
- Added JWT-based sign-in and deployed a demo app; documented setup and API examples in GitHub.

EDUCATION

B.Tech, Computer Science | Northstar Institute of Technology | 2026 | CGPA 8.2/10

CERTIFICATIONS AND ACHIEVEMENTS

Java Programming (NPTEL) | SQL Intermediate (HackerRank)
Add verified coding profiles, assessment scores, and awards.
