OBJECTIVE

Backend engineer with 6 years building payment and reconciliation systems at scale, seeking a senior role where reliability and latency work moves real business metrics.

ROHAN GUPTA

EXPERIENCE

2023 - Present

Senior Software Engineer • Finlytics Technologies

2020 - 2023

Software Engineer • PayNimbus

2018 - 2020

Junior Engineer • Zeta Systems

Built payment reconciliation APIs that cut manual checks by 30% and reduced p95 latency from 800ms to 240ms.

EDUCATION

VIT Vellore, Tamil Nadu

- B.Tech, Information Technology, 2018

SYSTEMS DESIGN

Designed event-driven services handling 4M+ daily transactions, covering idempotency, retries, and reconciliation across three payment gateways.

RELIABILITY

Own on-call for the payments tier. Cut Sev-2 incidents by 60% over four quarters through better alerting, circuit breakers, and load-shedding at the edge.
